SOLUTION ARCHITECT | SIEMENS TEAMCENTER
EXPERT | DIGITAL TRANSFORMATION

SUMMARY

Solution Architect with **14 years of experience** in **PLM and Siemens Teamcenter**, specializing in **architecture, deployment, customization, data migration, and CAD/ERP/MES integrations**. Proven track record delivering **digital transformation solutions**, including **mBOM/eBOM alignment, workflow automation, digital twin, and AI-enabled PLM processes**. Strong expertise across **aerospace, automotive, and manufacturing domains**, with hands-on experience in **Agile/DevOps practices, cross-functional team leadership, and enterprise-scale PLM upgrades**.

WORK EXPERIENCE

WISK AERO
MOUNTAIN VIEW, CA
2025-12 - PRESENT

PLM Solution Architect

Wisk Aero | Mountain View, CA | Dec 2025 - Present

- PLM Solution Architect and AI-augmented builder, I design enterprise PLM architecture and build LLM-powered applications that automate real aerospace manufacturing workflows.
- Built and deployed a multimodal AI tool that generates operation-by-operation composite work instructions from engineering drawings and Fibersim ply tables, running on real production parts.
- AI-Enabled PLM Processes, deliver AI solutions across core PLM and manufacturing workflows, including automated work-instruction authoring.
- AI-Driven Test Automation, developed AI-powered tools for automated testing of PLM applications, improving quality and release reliability.
- Intelligent CI/CD, built AI-based pipelines to streamline PLM development, integration, and deployment.
- Enterprise Integration, Teamcenter integrated with ERP and MES, ensuring seamless data continuity across engineering, manufacturing, and supply chain.

**SIEMENS DIGITAL
INDUSTRIES
SOFTWARE,**
OAKVILLE, CA
2021-11 - 2025-11

Solution Architect

Siemens Digital Industries Software | Oakville, ON, Canada | Nov 2021 - Nov 2025

- Teamcenter Architecture & Deployment: Hands-on with BMIDE, ITK, Active Workspace, Workflow Designer, BOM/Effectivity, Easy Plan, TcRA, and Access Manager; configured distributed environments and managed deployments via Deployment Center/TEM.
- Implemented Manufacturing BOM (mBOM) configurations to align engineering BOMs with manufacturing execution, ensuring accuracy, traceability, and regulatory compliance.
- Delivered solutions using Easy Plan (Manufacturing Process Planner) for process planning, operation sequencing, and integration with MES platforms.
- Configured and customized Active Workspace (AWC), tailoring UI layouts, data providers, and role-based views to improve adoption across engineering and manufacturing organizations.
- Integrations: Delivered CAD (NX, CATIA, Solid Edge, SolidWorks) and ERP (D365) integrations, and supported MES (OpCenter) integration for seamless engineering-to-manufacturing continuity.
- Data Migration: Delivered aerospace data migrations (metadata and CAD) and compliance-driven PLM solutions enabling configuration control and change management.
- Digital Twin & MBD: Contributed to digital twin adoption and model-based definition (MBD) initiatives to streamline lifecycle processes.
- Leadership & Collaboration: Led cross-functional PLM teams and partnered with Product Configurator teams on Teamcenter BOM Effectivity, Variability Management, and Change Management in highly regulated environments.

- Agile/DevOps: Worked in sprint cadence leveraging GitHub for version control and CI/CD; led Teamcenter upgrade projects involving complex BMIDE/ITK customizations and distributed architectures.

DESIGNFUSION

2018-09 - 2021-11

Application Specialist

Designfusion | Canada | Sep 2018 - Nov 2021

- Delivered Teamcenter implementations for customers migrating from unmanaged CAD systems to Teamcenter Unified.
- Integrated Teamcenter with ERP (Microsoft Dynamics F&O D365) using the Siemens T4EA gateway, and with CAD (Solid Edge, NX, SolidWorks).
- Customized Teamcenter client-side (RAC and AWC) and server-side per customer requirements; admin configs incl. Workflows, Organizations, Reports, Stylesheets, Preferences, Data Model updates, PLM XML, Query Builder, Access Manager, Project Administration.
- Developed custom utilities (bulk update, data migration, TC & ERP BOM Compare); configured Manufacturing Process Planner for eBOM/mBOM.
- Handled project management, presales demos/POCs, testing, user & admin training, and upgrades of Teamcenter, T4EA, and CAD systems.

CAPGEMINI

2017-01 - 2018-09

Consultant

Capgemini | India | Jan 2017 - Sep 2018

- Implemented business processes in Teamcenter Unified Architecture (TcUA): requirement gathering, development, and support of product development programs.
- Delivered data migration (I-deas to Teamcenter), change management, drawing-system automation with Teamcenter and NX, and custom SOA APIs for external integrations.
- Client- and server-side customization (BMIDE codeful/codeless, ITK, C/C++, Java, JSP, C#.NET); workflow design, XSL reports, Access Manager/Organization/Project security; TCIC (CATIA) and NX integration.

HCL INFOSYSTEMS

LTD, CHENNAI, IN
2015-08 - 2017-01

Software Engineer

HCL Infosystems Ltd. | Chennai, India | Aug 2015 - Jan 2017

- Integrated Teamcenter 11 with CATIA V5; customized TCIC functionality (load, LUS, etc.).
- Migrated data from AVBOM database to Teamcenter using SOA and ITK scripts; created SOA operations to replace user service calls.
- Solution design, deployment, patching, monitoring, and testing of Teamcenter configuration and customization.

WIPRO, HYDERABAD, IN

2012-12 - 2015-08

Project Engineer

Wipro | Hyderabad, India | Dec 2012 - Aug 2015

- Implemented Change Management; configured custom reports (monthly, yearly, ad hoc) and stylesheets to track changes.
- Developed ITK code for auto-generation of reports and workflow handlers (e.g., auto-assignment of reviewers).
- Automated 3D model creation of assemblies via Teamcenter-NX integration; built a client web page to request models with automated email replies; RAC customization for reviewer add/remove in workflows.

EDUCATION

JEPPIAAR ENGINEERING COLLEGE

2009 - 2012

Bachelor of Engineering (BEng)

Electronics & Communication Engineering | Jeppiaar Engineering College

KS RANGASAMY INSTITUTE OF TECH.

2006 - 2009

Diploma

Electronics & Communication | KS Rangasamy Institute of Technology

QUALIFICATIONS

Top Skills

Siemens Teamcenter · BMIDE · ITK · Active Workspace · Workflow Designer · BOM/Effectivity · Easy Plan
· TcRA · Access Manager · Java · C++ · C#.NET · SOA (SOAP/REST) · CAD/ERP/MES Integration · Data
Migration · Agile/DevOps · AS9100D / QMS · AI / Claude Code

CERTIFICATIONS
